STEP 1

Measure outside diameter (OD), and also inside diameter (ID) of hole.

STEP 2

Measure length from the outside of the cartridge (not including any raised steps, handles or threads).

STEP 3

If it doesn't have a hole each end, then determine types of endcaps. Common types are:

Top type

Handle

Closed (flat)

Bottom type

Slip fit

Coarse thread (SAE)

Fine thread (MPT)

Note: If it has a thread, measure the outside diameter (OD)
